Min. Gear Sturdy walking shoes, fluid

Directions to Trailhead
 In the village of Cadamstown (on the R421 between Clonslee and Kinnitty), the car park is located beside Dempsey's public house.

- A-B.** Starting from the **Village Car Park** in Cadamstown Village, turn left, cross the Silver River Bridge and follow the R421 road (signposted Kinnitty) around to the left past My Little Tea Shop. After 300m you reach a junction with the **Letter Road** from your left. Turn left here.
- B-C.** Follow this tarred road for over 1km to reach **Tobar Lughna** (a Holy Well) on your right - the Holy Well and church ruins are worth a visit.
- C-D.** After Tobar Lughna, the tarred road turns sharp left and continues for another 300m - ending at a **gateway**.
- D-E.** Enter through the gate (remembering to close it after you) and join a Y-junction of sandy laneways. Take the laneway to your left and follow it downhill, over a concrete footbridge, and onward for approximately 1km to reach **May Scully's Cottage** (on your right).
- E-F.** Just 100m after May Scully's Cottage you will join the long-distance Slieve Bloom Way as it comes in from your right at a wooden stile. This route is marked with

- yellow arrows and the familiar yellow trekking man logo. Continue past the stile for 50m and then turn sharp left onto an uphill forestry track. After 150m you reach a 3-way junction - veer left, still following the green arrow and the Slieve Bloom Way. Follow the forestry road for 500m to a point where it turns left into the forestry. Follow the green (and yellow) arrows through the forestry to exit at a small stream known locally as **Purcell's Brook**.
- F-G.** Cross Purcell's Brook and turn left onto an old laneway - noting that you have joined the blue loop which overlaps with the green loop on its return journey to Cadamstown. Follow the laneway downhill to reach a gateway at a beautiful **weir on the Silver River**. Turn right here.
- G-A.** Cross a small stile and join the bank of the spectacular Silver River. Enjoy the special scenery and rushing waters for almost 1km before ascending to a wooden stile and entering farmland. Turn left here onto a farm laneway - follow it downhill for 200m to reach a concrete stile. As you exit the farm, the **trailhead** and village are to your left.
